

# VersiControl™ Simplified Controller

## Features

- Provides lighting control to either RGB(W) or single color white
- Single color white option produces five step dimming control
- RGB(W) option implements basic color control, including color selection, dimming and fade speed
- Small form factor, eliminates the need for special wire harnessing
- Control via a SPST toggle switch or a SPDT momentary rocker switch
- Ignition protected, Explosive Atmosphere Exposure Test and High Temperature Operating Test per the ISO 8846 and SAE J1171 requirements

## Specification Guide

### Part #: 22805-RGBW-00

Base Part .....  
 Light Option .....  
 Wire Option .....

Base Part #	Light Option	Wire Option
22805	RGBW - RGBW S - Single Color	00 - Wire, No Connector

## Product Details

Housing Material	Black PVC
Voltage	10-28V DC
Current	RGBW: 10A Max Single Color: 5A Max
Operating Temp.	-4°F to 150°F
Wire Gauge	18AWG
IP Rating	IP67
