

Elsa™ Underwater Light

Features

- Turned bronze housing and tempered borosilicate glass lens
- High lumen RGBW lighting
- Compact surface mount design
- Hardware included for bracket mounting
- Thermal fold back prevents overheating
- High performance at a competitive price
- Separate, external power wires, ensure the light's high current never runs through the controller

Specification Guide

Part #: 696E-RGBW

Base Part #

LED Color

Base Part #	LED Color
696E	RGBW

Product Details

Housing Material	Turned Marine Bronze
Lens Material	Borosilicate Glass
Voltage	10-24V DC
Wattage	46W
Current	14A (all colors on)
Lumens	1800LM @ 6500K
IP Rating	IP68
UV Stable	Yes
Wire Gauge	18AWG - Power wires 24AWG - RGB wires
Wire Length	60"
Operating Temp.	-40°F to +158°F
