

# Premium USB Charger

## Features

- Decorative stainless or black bezel elevates the look of the USB and blends with other gauges on the dash
- Rubber door provides an IP64 rating and protects the electronics from water ingress
- Conformal coating, drain hole and gold coated contacts withstand harsh marine environments
- Lit bling ring adds to the high end look
- Small diameter nut mount requires minimal cut out and simplifies installation
- Ability to charge two devices at once with a standard dual USB-A

## Product Details

|                  |                     |
|------------------|---------------------|
| Housing Material | Black Polycarbonate |
| Bezel Material   | 304SS               |
| Cutout           | 1 $\frac{1}{8}$ "   |
| Voltage          | 10-14V DC           |
| Input Current    | 2A                  |
| Output Current   | 2.4A/port           |
| Cutout           | 1 $\frac{1}{8}$ "   |
| IP Rating        | IP64                |
| UV Stable        | Yes                 |
| Wire Gauge       | 18AWG               |

## Specification Guide

### Sample Part #: USB-AA-BLSS

Base Part # .....  
 USB Configuration .....  
 Lit Ring Color .....  
 Bezel Finish .....

| Base Part # | USB Configuration    | Lit Ring Color | Bezel Finish                       |
